A top-down view of a circular wooden structure, possibly a table or a decorative piece. The structure is composed of concentric rings of wood. The outermost ring is a light-colored wood, while the inner rings are a darker, greyish wood. In the center, there is a circular opening with a complex, lattice-like pattern. The overall design is organic and inspired by natural forms.

GEA
collection

La collezione di arredi GEA disegnata dall'architetto Giovanni Luca Ferreri è un omaggio alle forme e ai colori della Terra.

Ogni singolo pezzo di questa collezione nasce e si ispira alle geometrie e alle forme della natura. Dettagli e finiture in tutti gli arredi e i complementi della nuova collezione esprimono questa appartenenza. Una collezione che si ispira alla tradizione nordica, rivista attraverso la sapienza dell'alta ebanisteria italiana. Ebano bianco, Ziricote, Noce Canaletto e frassino sono le essenze che proponiamo in diverse declinazioni combinandole a metalli e pelli che ne esaltano le qualità.

The GEA furniture collection, designed by the architect Giovanni Luca Ferreri, is a tribute to the shapes and colours of the Earth.

Each and every single piece of this collection is born and inspired by the geometries and shapes of nature. Details and finishes in all the furnishings and accessories of this new collection express these roots – this is a collection inspired by the Nordic tradition, revisited through the skills and expertise of high Italian artisan craftsmanship. White ebony, Ziricote, Canaletto walnut and ash are the wood types offered in numerous versions, combining them with metal and leather in order to wonderfully enhance their qualities.

Una linea contemporanea di arredi disegnati dall'architetto Giovanni Luca Ferreri che richiama le origini della Modernità.

Colori e storie che raccontano le origini di una cultura figurativa ricca di suggestioni, ispirate alla natura dei luoghi e delle loro genti. Nei dettagli della nuova linea Delfi si trovano i rimandi all'arte e alla cultura Ellenica: per esempio le briglie del famoso capolavoro, l'Auriga di Delfi, diventano il tema per un dettaglio che caratterizza la base dei mobili contenitore.

This contemporary line of furnishings, designed by architect Giovanni Luca Ferreri, beautifully conjures up the true origins of Modernity.

Colors and stories that tell the origins of a figurative culture rich in suggestions, inspired by the nature of the place and their people. The details of the new Delfi line include references to Hellenic art and culture: for example, the bridle of the famous masterpiece, the Auriga of Delfi, becomes the theme for a detail that characterizes the base of the furniture.
